

In the Drawings

A request for Approval of Proposed Drawing Corrections is enclosed along with revised Figure 6.

Applicants present replacement figure 6 which includes the amended changes.

The Examiner has objected to the drawings because the previous amendment to figure 6 does not completely label the three views as 6A, 6B, and 6C.

A corrected drawing is submitted herewith. The correct numerical labels have been added to figure 6 as required by the Examiner. Applicants believe the corrected drawings overcome the objections to the drawings.
